DOCKELET 24 CHU

Re:

Arizona Water Company; Application For Adjustments To Its Rates And Charges For Utility Service (Eastern Group) Docket No. W-01445A-02-0619

RESPONSE TO LETTER OF DEFICIENCY

Dear Mr. Thornton:

On August 14, 2002, Arizona Water Company filed the above-referenced application for adjustments to its rates and charges for water utility service furnished by its Eastern Group systems. That application has been assigned Docket No. W-01445A-02-0619.

By letter dated September 13, 2002, you indicated that Staff had identified certain deficiencies in the application. In addition, Staff requested that Arizona Water provide certain supplemental information that is not required by the Commission's regulation governing applications for rate increases. The alleged deficiencies and the supplemental information are identified in the document labeled "Deficiency Exhibit" attached to your September 13 letter.

Arizona Water believes that Staff's determinations are questionable. For example, we believe that Schedule E-9 and Schedule F-2 comply with the requirements set forth in R14-2-103. These schedules are fully consistent with the schedules that were filed in 2000 in support of Arizona Water's application for adjustments to its rates and charges for water utility service furnished by its Northern Group (Docket No. W-01445A-00-0962). Those schedules conformed to the 1994-95 group filing agreement worked out between the Company and Staff, and passed Staff's Sufficiency Review without comment.

Notwithstanding these disagreements, Arizona Water would prefer to move forward with its application and is filing the additional information identified in the Deficiency Exhibit. Your September 13 letter indicates that Arizona Water should file an original and 15 copies of the "corrected pages" with Docket Control. Although the Commission's regulation governing rate application filing requirements specifies that an original and 10 copies should be filed with the

Mr. John S. Thornton, Jr. Arizona Corporation Commission

September 20, 2002 Page 2

Docket Control, we will file the additional copies that you have requested. Copies will also be delivered to the Hearing Division and to Mr. Ludders.

Based on your letter, I understand that a new 30-day sufficiency determination period will begin to run as of the date of this filing. This would mean that Staff will have until October 20, 2002, to review the enclosed materials. If you do have any questions or require any additional information, I would greatly appreciate it if Mr. Ludders or you would call me rather than mailing a letter on the final day of the 30-day review period. I will be happy to answer any questions that you may have concerning the corrected schedules and the additional, supplemental materials that Staff has requested. For example, we could have immediately corrected the bill count schedules, which error was caused by a copying mistake. We would like to work with Staff to ensure that the filing complies with the Commission's regulation.

Thank you for your cooperation and assistance.

Sincerely,

Ralph J. Kennedy

Vice President and Treasurer

ARIZONA WATER COMPANY Eastern Group Docket No. U-1445A-02-0619 Responses to Deficiency Exhibit

Question 1. Schedule E-9. Please provide audited financial statements, as required.

Response To Deficiency Exhibit Data Requests Question No. 1

Attached are audited financial statements for the test year 2001 and the two fiscal years ended prior to the end of the test year, 2000 and 1999.

Financial Statements

December 31, 2001 and 2000

(With Independent Auditors' Report Thereon)

355 South Grand Avenue Suite 2000 Los Angeles, CA 90071-1568

Independent Auditors' Report

The Board of Directors Arizona Water Company:

We have audited the accompanying balance sheets and statements of capitalization of Arizona Water Company as of December 31, 2001 and 2000, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in note 1, the accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America and with the accounting requirements of the Arizona Corporation Commission, as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Arizona Water Company as of December 31, 2001 and 2000, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America and with the accounting requirements of the Arizona Corporation Commission, as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners.

Notes to Financial Statements December 31, 2001 and 2000

(1) Summary of Significant Accounting Policies

Arizona Water Company (the "Company") is a wholly owned subsidiary of Utility Investment Company, which is a wholly owned subsidiary of United Resources, Inc.

The Company has prepared the accompanying financial statements in accordance with the accounting requirements of the Arizona Corporation Commission (the "Commission") as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under that basis of accounting, deferred taxes at December 31, 2001 have not been provided for all temporary differences. Under generally accepted accounting principles, all deferred taxes and related regulatory accounts would be recorded on the balance sheet.

(a) Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

(b) Utility Plant and Depreciation

Utility plant is recorded at original cost as defined for regulatory purposes. Retired utility plant is eliminated from utility plant accounts at cost and is charged against accumulated depreciation.

Properties acquired by the Company at its inception in 1955 were recorded at original cost less depreciation substantially as shown on the predecessor company's books. Operating utility systems acquired subsequently were recorded at estimated original cost as determined by Company engineers and/or independent professional engineers. Use of the aforementioned original cost of the properties as an element in the rate making process has been sustained by the Commission.

Differences between the original cost of properties acquired and their acquisition costs are accounted for as acquisition adjustments and are included in or deducted from utility plant. Beginning in 1987, in accordance with a Commission order, the Company adopted a policy of amortizing acquisition adjustments over a five-year period from the date of acquisition.

Depreciation is provided on a straight-line composite basis at 2.59% for 2001 and 2000. For federal and state income tax purposes, depreciation is computed using accelerated methods.

(c) Deferred Credits

In 1995, in accordance with a Commission order, the Company began accruing an allowance for funds used during construction ("AFUDC") on water service capital charge payments made to the Central Arizona Project ("CAP"). AFUDC represents the cost of debt and equity funds used to finance the CAP payments. AFUDC does not represent current cash earnings. AFUDC has been calculated using a composite rate of 3.85% and 4.94% for 2001 and 2000, respectively. The Company ceases to accrue AFUDC when the CAP payments are included in the cost of service by the Commission.

Notes to Financial Statements December 31, 2001 and 2000

(d) Advances for and Contributions in Aid of Construction

Customers' advances for construction are refundable generally based on 10% of revenues from the constructed property over a 10-year period. Unrefunded advances remaining at the expiration of the contracts are credited to contributions in aid of construction. Beginning in 1993, in accordance with an order from the Commission, the Company began amortizing contributions in aid of constructions over the estimated useful life of the related asset. Amortization totaled \$555,621 and \$516,915 for the years ended December 31, 2001 and 2000, respectively.

(e) Income Taxes

The Company is included in the consolidated federal income tax return of United Resources, Inc., the Company's ultimate parent. The Company computes its federal tax expense on a separate return basis. Beginning in 1983, in compliance with a Commission order, deferred federal income taxes are provided on the excess tax depreciation deduction relating to assets placed in service after 1980 and investment tax credits are amortized to income over the estimated useful lives of the related assets. Income tax adjustments arising from other items reported differently for income tax and financial reporting purposes are reflected currently in income in accordance with orders and practices of the Commission for ratemaking purposes.

(f) Revenues

Revenues include unbilled amounts based on estimated usage from the latest meter reading to the end of the accounting period.

(2) Long-term Debt and Other Borrowings

Under provisions of the General Mortgage Bond Indenture, as supplemented, at December 31, 2001 retained earnings of \$42,114,459 were available for the payment of dividends on common stock (other than stock dividends) or for certain other distributions or acquisitions respecting capital stock. There is a \$460,000 annual sinking fund requirement relating to the General Mortgage Bonds for 2001. Substantially all of the Company's utility plant is pledged as collateral under provisions of the General Mortgage Bond Indenture

In April 2001, the Company issued \$15,000,000 of general mortgage bonds at a rate of 8.04% due April 1, 2031.

The Company has an unsecured line of credit with a commercial bank that allows for borrowings of up to \$3,000,000 at December 31, 2001, at the rates publicly announced by the bank from time to time at its reference rate less .25 of a percentage point or its offshore rate plus 1 percentage point. At December 31, 2001, the reference rate and 30-day offshore rate were 4.75% and 1.87%, respectively. The line of credit expires on March 29, 2002. The amount borrowed under this line as of December 31, 2001 was \$2,850,000.

Notes to Financial Statements

December 31, 2001 and 2000

(3) Retirement Plan

The Arizona Water Company Retirement and Savings Plan (the "Plan") covers substantially all employees who have over one year of service with the Company. The Plan provides for Company contributions as a percentage of eligible employees' gross wages and Company contributions that match a portion of each employee's contributions. Total retirement provisions for 2001 and 2000 were \$488,083 and \$449,288, respectively.

(4) Income Taxes

The following is a reconciliation between the amount of income tax expense computed at federal and state statutory rates and that shown in the accompanying statements of income:

	 2001		2000
Federal and state income taxes at statutory rates	\$ 2,676,507	\$	3,374,875
Changes in taxes resulting from: Excess tax over book depreciation Investment tax credit, current year amortization Other, net	(11,328) (36,231) (78,580)		(41,850) (36,231) (505,496)
Total tax expense	\$ 2,550,368	_ \$ _	2,791,298
Tax expense included in: Operations Other income	\$ 2,532,193 18,175	\$	2,682,630 108,668
Total tax expense	\$ 2,550,368	\$ _	2,791,298

Deferred tax provisions, included in the tax expense amounts shown above, amounted to \$378,965 and \$459,953 for 2001 and 2000, respectively.

(5) Commitments

The Company has entered into agreements for up to 50 years for the long-term availability and treatment of CAP water. Under the agreements, the Company's obligation totaled \$906,629 in 2001 and will increase in various increments during the remaining terms of the agreements. As of December 31, 2001, the amount deferred, including AFUDC of \$1,125,000, totaled \$4,341,000. The Company believes all such costs will be recovered.

(6) Litigation

The Company, along with others, is a defendant in various lawsuits brought by several Indian communities claiming certain surface and groundwater rights. In the opinion of management, the resolution of these matters will not have a material effect on the financial statements.

(7) Regulatory Matters

The Commission has regulatory authority over the Company in matters relating to water utility rates. On December 28, 2001, the Commission authorized an increase in rates for the Company's Northern Group effective January 1, 2002.

(With Independent Auditors' Report Thereon)

One Arizona Center 400 E. Van Buren Street Suite 1100 Phoenix, AZ 85004

Independent Auditors' Report

The Board of Directors Arizona Water Company:

We have audited the accompanying balance sheets and statements of capitalization of Arizona Water Company as of December 31, 2000 and 1999, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, the accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America and with the accounting requirements of the Arizona Corporation Commission as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Arizona Water Company as of December 31, 2000 and 1999, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America and with the accounting requirements of the Arizona Corporation Commission as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners.

Notes to Financial Statements December 31, 2000 and 1999

(1) Summary of Significant Accounting Policies

Arizona Water Company (the "Company") is a wholly owned subsidiary of Utility Investment Company, which is a wholly owned subsidiary of United Resources, Inc.

The Company has prepared the accompanying financial statements in accordance with the accounting requirements of the Arizona Corporation Commission (the "ACC") as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under that basis of accounting, deferred taxes at December 31, 2000 have not been provided for all temporary differences. Under generally accepted accounting principles, all deferred taxes and related regulatory accounts would be recorded on the balance sheet.

(a) Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

(b) Utility Plant and Depreciation

Utility plant is recorded at original cost as defined for regulatory purposes. Retired utility plant is eliminated from utility plant accounts at cost and is charged against accumulated depreciation.

Properties acquired by the Company at its inception in 1955 were recorded at original cost less depreciation substantially as shown on the predecessor company's books. Operating utility systems acquired subsequently were recorded at estimated original cost as determined by Company engineers and/or independent professional engineers. Use of the aforementioned original cost of the properties as an element in the rate making process has been sustained by the ACC.

Differences between the original cost of properties acquired and their acquisition costs are accounted for as acquisition adjustments and are included in or deducted from utility plant. Beginning in 1987, in accordance with an ACC order, the Company adopted a policy of amortizing acquisition adjustments over a five-year period from the date of acquisition.

Depreciation is provided on a straight-line composite basis at 2.59% for 2000 and 1999. For federal and state income tax purposes, depreciation is computed using accelerated methods.

(c) Deferred Credits

In 1995, in accordance with an ACC order, the Company began accruing an allowance for funds used during construction ("AFUDC") on water service capital charge payments made to the Central Arizona Project ("CAP"). AFUDC represents the cost of debt and equity funds used to finance the CAP payments. AFUDC does not represent current cash earnings. AFUDC has been calculated using a composite rate of 4.94% and 6.85% for 2000 and 1999, respectively. The Company ceases to accrue AFUDC when the CAP payments are included in the cost of service by the ACC.

Notes to Financial Statements December 31, 2000 and 1999

(d) Contributions in Aid of Construction

Customers' advances for construction are refundable generally based on 10% of revenues from the constructed property over a 10-year period. Unrefunded advances remaining at the expiration of the contracts are credited to contributions in aid of construction. Beginning in 1993, in accordance with an order from the ACC, the Company began amortizing contributions in aid of constructions over the estimated useful life of the related asset. Amortization totaled \$516,915 and \$477,314 for the years ended December 31, 2000 and 1999, respectively.

(e) Income Taxes

The Company is included in the consolidated federal income tax return of United Resources, Inc. The Company computes its federal tax expense on a separate return basis. Beginning in 1983, in compliance with an ACC rate order, deferred federal income taxes are provided on the excess tax depreciation deduction relating to assets placed in service after 1980 and investment tax credits are amortized to income over the estimated useful lives of the related assets. Income tax adjustments arising from other items reported differently for income tax and financial reporting purposes are reflected currently in income in accordance with orders and practices of the ACC for ratemaking purposes.

(f) Revenues

Revenues include unbilled amounts based on estimated usage from the latest meter reading to the end of the accounting period.

(2) Long-term Debt and Other Borrowings

Under provisions of the General Mortgage Bond Indenture, as supplemented, at December 31, 2000 retained earnings of \$40,608,870 were available for the payment of dividends on common stock (other than stock dividends) or for certain other distributions or acquisitions respecting capital stock. There is a \$460,000 annual sinking fund requirement relating to the General Mortgage Bonds for 2000. Substantially all of the Company's utility plant is pledged as collateral under provisions of the General Mortgage Bond Indenture.

The Company has an unsecured line of credit with a commercial bank that allows for borrowings of up to \$14,000,000 at December 31, 2000, at the rates publicly announced by the bank from time to time at its reference rate less .25 of a percentage point or its offshore rate plus 1 percentage point. At December 31, 2000, the reference rate and 30-day offshore rate were 9.50% and 6.56%, respectively. The line of credit expires on May 31, 2001. The amount borrowed under this line as of December 31, 2000 was \$13,400,000.

(3) Retirement Plan

The Arizona Water Company Retirement and Savings Plan (the "Plan") covers substantially all employees who have over one year of service with the Company. The Plan provides for Company contributions as a percentage of eligible employees' gross wages and Company contributions that match a portion of each employee's contributions. Total retirement provisions for 2000 and 1999 were \$449,288 and \$400,770, respectively.

Notes to Financial Statements December 31, 2000 and 1999

(4) Income Taxes

The following is a reconciliation between the amount of income tax expense computed at federal and state statutory rates and that shown in the accompanying statements of income:

		2000		1999
Federal and state income taxes at statutory rates Changes in taxes resulting from:	\$	3,374,875	\$	3,029,003
Excess tax over book depreciation		(41,850)		(66,400)
Investment tax credit, current year amortization		(36,231)		(36,231)
Other, net		(505,496)	_	(332,490)
Total tax expense	\$ _	2,791,298	_ \$ _	2,593,882
			_	
Tax expense included in:				
Operations	\$	2,682,630	\$	2,580,727
Other income		108,668		13,155
	_		_	
Total tax expense	\$_	2,791,298	_ \$ _	2,593,882

Deferred tax provisions included in the tax expense amounts shown above amounted to \$459,953 and \$443,476 for 2000 and 1999, respectively.

(5) Commitments

The Company has entered into agreements for up to 50 years for the long-term availability and treatment of CAP water. Under the agreements, the Company's obligation totaled \$951,259 in 2000 and will increase in various increments during the remaining terms of the agreements. As of December 31, 2000, the amount deferred, including AFUDC of \$926,000, totaled \$4,296,000. The Company believes all such costs will be recovered.

(6) Litigation

The Company, along with others, is a defendant in various lawsuits brought by several Indian communities claiming certain surface and groundwater rights. In the opinion of management, the resolution of these matters will not have a material effect on the financial statements.

Financial Statements

December 31, 1999 and 1998

(With Independent Auditors' Report Thereon)

One Arizona Center 400 East Van Buren Street Suite 1100 Phoenix, AZ 85004

Independent Auditors' Report

The Board of Directors Arizona Water Company:

We have audited the accompanying balance sheets and statements of capitalization of Arizona Water Company as of December 31, 1999 and 1998, and the related statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1 to the accompanying financial statements, the financial statements have been prepared in accordance with generally accepted accounting principles and the accounting requirements of the Arizona Corporation Commission as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the information presented in the financial statements referred to above present fairly, in all material respects, the financial position of Arizona Water Company as of December 31, 1999 and 1998, and the results of its operations and its cash flows for the years then ended in accordance with generally accepted accounting principles and the accounting requirements of the Arizona Corporation Commission as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners.

Notes to Financial Statements December 31, 1999 and 1998

(1) Summary of Significant Accounting Policies

Arizona Water Company (the "Company") is a wholly owned subsidiary of Utility Investment Company, which is a wholly owned subsidiary of United Resources, Inc.

The Company has prepared these financial statements in accordance with the accounting requirements of the Arizona Corporation Commission (the "ACC") as set forth in the Uniform System of Accounts prescribed by the National Association of Regulatory Utility Commissioners, which is a comprehensive basis of accounting other than generally accepted accounting principles. Under that basis of accounting, deferred taxes at December 31, 1999 have not been provided for all temporary differences. Under generally accepted accounting principles, all deferred taxes and related regulatory accounts would be recorded in the balance sheet.

(a) Cash Equivalents

The Company considers all highly-liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

(b) Utility Plant and Depreciation

Utility plant is recorded at original cost as defined for regulatory purposes. Retired utility plant is eliminated from utility plant accounts at cost and charged against accumulated depreciation.

Properties acquired by the Company at its inception in 1955 were recorded at original cost less depreciation substantially as shown on the predecessor company's books. Operating utility systems acquired subsequently were recorded at estimated original cost as determined by Company engineers and/or independent professional engineers. Use of the aforementioned original cost of the properties as an element in the rate making process has been sustained by the ACC.

Differences between the original cost of properties acquired and their acquisition costs are accounted for as acquisition adjustments and are included in or deducted from utility plant. Beginning in 1987, in accordance with an ACC order, the Company adopted a policy of amortizing acquisition adjustments over a five-year period from the date of acquisition.

Depreciation is provided on a straight-line composite basis at 2.59% for 1999 and 1998. For federal and state income tax purposes, depreciation is computed using accelerated methods.

(c) Deferred Credits

In 1995, in accordance with an ACC order, the Company began accruing an allowance for funds used during construction ("AFUDC") on water service capital charge payments made to the Central Arizona Project ("CAP"). AFUDC represents the cost of debt and equity funds used to finance the CAP payments. AFUDC does not represent current cash earnings. AFUDC has been calculated using a composite rate of 6.85% and 7.10% for 1999 and 1998, respectively. The Company ceases to accrue AFUDC when the CAP payments are included in the cost of service by the ACC.

Notes to Financial Statements December 31, 1999 and 1998

(d) Contributions in Aid of Construction

Customers' advances for construction are refundable generally based on 10% of revenues from the constructed property over a 10-year period. Unrefunded advances remaining at the expiration of the contracts are credited to contributions in aid of construction. Beginning in 1993, in accordance with an order from the ACC, the Company began amortizing contributions in aid of constructions over the estimated useful life of the related asset. Amortization totaled \$477,314 and \$439,531 for the years ended December 31, 1999 and 1998, respectively.

(e) Income Taxes

The Company is included in the consolidated federal income tax return of United Resources, Inc. The Company computes its federal tax expense on a separate return basis. Beginning in 1983, in compliance with an ACC rate order, deferred federal income taxes are provided on the excess tax depreciation deduction relating to assets placed in service after 1980 and investment tax credits are amortized to income over the estimated useful lives of the related assets. Income tax adjustments arising from other items reported differently for income tax and financial reporting purposes are reflected currently in income in accordance with orders and practices of the ACC for rate-making purposes.

(f) Revenues

Revenues include unbilled amounts based on estimated usage from the latest meter reading to the end of the accounting period.

(2) Long-term Debt and Other Borrowings

Under provisions of the General Mortgage Bond Indenture, as supplemented, at December 31, 1999 retained earnings of \$37,517,205 were available for the payment of dividends on common stock (other than stock dividends) or for certain other distributions or acquisitions respecting capital stock. There is a \$460,000 annual sinking fund requirement relating to the General Mortgage Bonds for 2000. Substantially all of the Company's utility plant is pledged as collateral under provisions of the General Mortgage Bond Indenture.

The Company has an unsecured line of credit with a commercial bank which allowed for borrowings of up to \$12,500,000 at December 31, 1999, at an interest rate which approximates prime. There were \$11,250,000 and \$7,700,000 in borrowings outstanding as of December 31, 1999 and 1998, respectively.

(3) Retirement Plan

The Arizona Water Company Retirement and Savings Plan (the "Plan") covers substantially all employees who have over one year of service with the Company. The Plan provides for Company contributions as a percentage of eligible employees' gross wages and Company contributions that match a portion of each employee's contributions. Total retirement provisions for 1999 and 1998 were \$400,770 and \$402,430, respectively.

Notes to Financial Statements
December 31, 1999 and 1998

(4) Income Taxes

The following is a reconciliation between the amount of income tax expense computed at federal and state statutory rates and that shown in the accompanying statements of income:

	_	1999	<u>-</u>	1998
Federal and state income taxes at statutory rates	\$	3,029,003	\$	3,365,094
Changes in taxes resulting from: Tax over book depreciation		(66,400)		(95,986)
Investment tax credit, current year amortization		(36,231)		(36,231)
Other, net	_	(332,490)		(1,180,516)
Total tax expense	\$ _	2,593,882	\$_	2,052,361
Tax expense included in:				
Operations	\$	2,580,727	\$	2,032,640
Other income		13,155		19,721
Total tax expense	\$ <u>_</u>	2,593,882	_ \$ _	2,052,361

Deferred tax provisions included in the tax expense amounts shown above amounted to \$443,476 and \$450,129 for 1999 and 1998, respectively.

(5) Commitments

The Company has entered into agreements for up to 50 years for the long-term availability and treatment of CAP water. Under the agreements, the Company's obligation totaled \$995,889 in 1999 and will increase in various increments during the remaining terms of the agreements. As of December 31, 1999, the amount deferred, including AFUDC of \$764,000 totaled \$2,425,000. The Company believes all such costs will be recovered.

(6) Litigation

The Company, along with others, is a defendant in various lawsuits brought by several Indian communities claiming certain surface and groundwater rights. In the opinion of management, the resolution of these matters will not have a material effect on the financial statements.

ARIZONA WATER COMPANY Eastern Group Docket No. U-1445A-02-0619 Responses to Deficiency Exhibit

ARIZONA WATER COMPANY Eastern Group Docket No. U-1445A-02-0619

Responses to Deficiency Exhibit

Data Requests issued pursuant to Rule R14-2-103.B.5 regarding Additional information which states: "The Commission may request that supplementary information in addition to that specifically required in subsection (B)(1) and (2) of this General Order be submitted by a utility either prior to or after a filing." 1. Please provide the amount of water sold and the amount of water pumped during the last 12 months. (The 2002 summer peaks should be included.) Please note if fire hydrants or fire flow is provided. Inter connections with other private water systems or cities, and the capacity of those interconnections should be noted. This water use data should be specific to each of the eight water systems in this rate application. The required format for your response is attached.

Response To Deficiency Exhibit Data Requests issued pursuant to Rule R14-2-103.B.5, Question No. 1

Attached is the water use data for the eight water systems in the Eastern Group during the last twelve months in the format provided with the request.

Eastern Group Docket No. U-1445A-02-0619 Responses to Deficiency Exhibit Data Requests issued pursuant to Rule R14-2-103.B.5 regarding Additional information which states: "The Commission may request that supplementary information in addition to that specifically required in subsection (B)(1) and (2) of this General Order be submitted by a utility either prior to or after a filing." 2. Please provide an inventory of the major plant in service. The inventory should be specific to each of the eight water systems in this rate application. Major plant in service includes wells, storage tanks, booster pumps, pressure tanks, distribution mains, and meters. A suggested format for your response is attached.

Response To Deficiency Exhibit Data Requests issued pursuant to Rule R14-2-103.B.5, Question No. 2

Attached is the requested inventory information for the eight water systems in the Eastern Group.

ARIZONA WATER COMPANY Eastern Group Docket No. U-1445A-02-0619

Responses to Deficiency Exhibit

Data Requests issued pursuant to Rule R14-2-103.B.5 regarding Additional information which states: "The Commission may request that supplementary information in addition to that specifically required in subsection (B)(1) and (2) of this General Order be submitted by a utility either prior to or after a filing."

3. Please provide a copy of the most recent DEQ Monitoring Assistance Program invoice for each of the participating water systems.

Response To Deficiency Exhibit Data Requests issued pursuant to Rule R14-2-103.B.5, Question No. 3

Attached are copies of the most recent DEQ Monitoring Assistance Program invoices for the participating water systems in the Eastern Group.

ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY MONITORING ASSISTANCE PROGRAM ANNUAL SAMPLING FEE INVOICE

Pursuant to A.R.S. § 49-113, interest will be charged if full payment is not received by the specified due date. If you dispute the amount listed, please contact ADEQ as soon as possible. To reduce interest costs on an unpaid invoice, you may remit an amount that you believe is not in dispute. However, if nonpayment is due to wilful neglect, you may suffer an additional five percent penalty of up to twenty-five percent of the amount due for each month or fraction of a month the amount is past due.

ARIZONA WATER COMPANY If you have any questions about your invoice, contact

Tony Bode at (602) 207-4532

or toll-free within Arizona at (800) 234-5677, extension 4644

Pursuant to A.R.S. § 49-360 and A.A.C. R18-4-224 through R18-4-226, "The director shall establish fees for the centralized monitoring program to be collected from all public water systems..."
